*See the kitchen in a new light*

2 | 3

When we think about the kitchen today, we associate it not only with cooking but, above all, with communication – it's a place for laughter, celebration, discussion and the enjoyment of food. And it also offers another shared experience: the joy of preparing food together and of trying out new recipes, whether in small, intimate gatherings or larger groups. The kitchen has become the heart of the home.

And, in the midst of it all, the sink. Although we live in the dishwasher age, more than 60% of all kitchen work is still carried out at the sink.

Full of vitality and character, ceramic sinks from Villeroy & Boch not only confer the kitchen with an appealing charm, they also provide contemporary functionality. See for yourself: allow our ideas, the special aura of the design and the wealth of colours and forms to inspire you. Discover the ceramic sink that fulfils your expectations in style and quality, developed on the basis of the more than 250 years of experience acquired throughout Villeroy & Boch's long history.

*Built-in/surface  
mounted sinks*

1

1 CONDOR 50 ceramic sink in *white alpin*

ARENA 60 ceramic sink in *grani-creme*

## Arena / Condor

Built-in/surface-mounted sinks 6 | 7

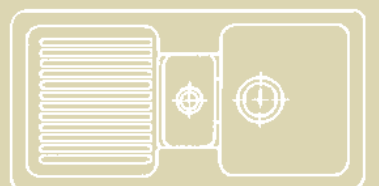

Each kitchen is individual, which is why solutions have to be individual, too. Villeroy & Boch's ceramic sinks offer such tremendous variety that their compact dimensions, stylish design and extreme practicality will meet every need. The ARENA and CONDOR sinks even look great in undercounter units only 45 cm wide.

Spoiled for choice.

Arena  
99 x 51, 91 x 51, 86 x 51 cm

Condor  
116 x 51, 100 x 51, 86 x 51, 80 x 51 cm

ARCORA CORNER 90 ceramic sink in *grani-apricot*

ARENA CORNER ceramic sink in *grani-pearl*

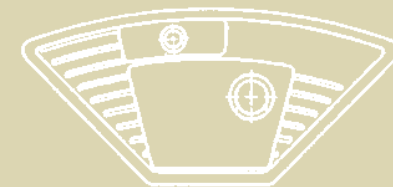

## Arcora Corner/Arena Corner

Built-in/surface-mounted sinks 8 | 9

With ARCORA CORNER and ARENA CORNER, previously unused corners are released from their shadowy existence and take centre stage. The corner sinks make optimum use of the existing space and provide an effective link between two work surfaces. A new look. A whole new experience.

A corner becomes a focal point.

Arcora Corner  
108.5 x 50 cm

Arena Corner  
97.5 x 62.5 cm

LUNA round sink in *graphite*.

## Luna

Built-in/surface-mounted sinks 10 | 11

LUNA gives every kitchen that certain something. Is it the pure elegance of its curves or the striking contrast to the straight edges of the worktop? Whether as a single or double-bowl model, form and function are united in perfect harmony.

An all-round success.

Luna  
Ø 48 cm

 2 LUNA round sink in *white alpin*

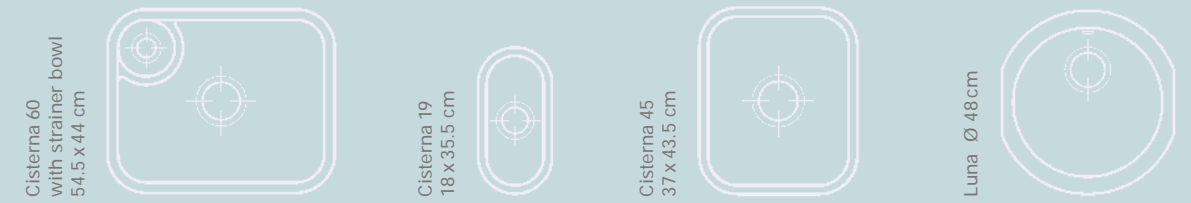

CISTERNA 19 ceramic sink and CISTERNA 45 in *white alpin*

## Cisterna / Luna

Undercounter sinks 14 | 15

What could be better than a continuous and easy-to-clean worktop made of a high-quality material such as solid wood or natural or artificial stone? Imagine such a worktop with an integrated ceramic sink with no ridges or edges to disturb the smoothness of the plane. Everything's clean in a flash, making preparation and cooking twice as much fun!

Tops for cleanliness.

*My House of Villeroy & Boch*

*Modules*

ARENA LINEAR ceramic sink in *metallic grey*

*Arena linear*

Modules 18 | 19

ARENA LINEAR is not just a feast for the eyes, it's also highly functional: two bowls of different depths plus a strainer bowl and there's still room for a 60cm-wide dishwasher underneath. And, thanks to the simple installation between two worktops, complicated cut-outs are finally a thing of the past.

Perfectly cast.

Arena linear  
119.5 x 62.5 cm

ARENA integral ceramic sink in *grani-yellow*

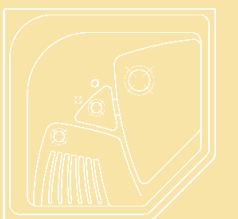

## *Arena integral*

Corner module 20 | 21

Corners that were demoted to areas merely for depositing odds and ends are now a thing of the past. With ARENA INTEGRAL, the ceramic sink and corner work surface now come as a single unit, which means no joints or edges, no complicated installation and no expensive corner worktops. Simply a functional and eye-catching design element that couldn't be easier to keep clean.

Spic and span.

Arena integral  
89,6 x 89,6 cm

1 Double-bowl ceramic sink in *white alpin*  
2 Ceramic worktop in *white alpin*

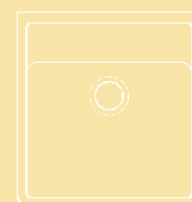

Single-bowl ceramic sink in *white alpin*

## Ceramic sink

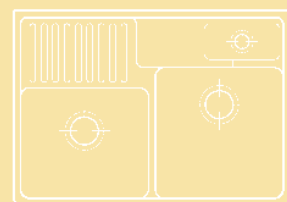

The old-fashioned ceramic sink is experiencing something of a comeback, and not without reason: its timeless design makes it the very essence of robustness and tradition. It is available either as a single or double-bowl model with side bowl and additional ceramic worktop. With its new practical features and dimensions, it's proving a real hit for the modern day kitchen whilst remaining true to itself.

The classic.

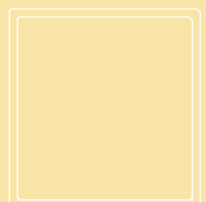

Ceramic sink with single-bowl  
59.5 x 63 x 22 cm

Ceramic sink with double-bowl  
89.5 x 63 x 22 cm

Ceramic worktop  
59.5 x 62 cm

*My House of Villeroy & Boch*

*Stand-alone  
furniture*

Sink unit with ceramic sink in *white alpin*

1 Wall cupboard in beech (solid wood in part)

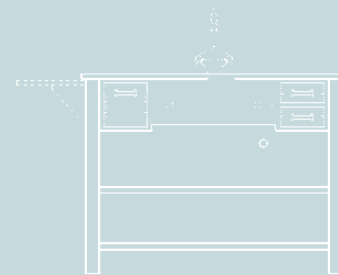

## Stand-alone furniture

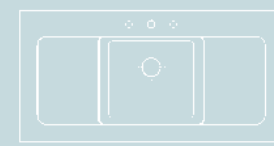

The sink unit not only sets off the ceramic sink and top quality tap fittings to great advantage it also has an impressive, clear design and intelligent details: a fold-out worktop, sturdy, easy-sliding drawers, an integrated towel rail, as well as slatted and standard shelves. It can be combined with the matching wall cupboard with continuous shelf, hook rail and drawers.

A good team.

Sink unit  
120 x 60 x 92 cm

Ceramic sink

Wall cupboard  
140 x 35.5 x 45 cm

Stainless steel salad basket

1

2

1 Side bowl  
2 Stainless steel strainer basket

## Accessories

All ceramic sinks with side bowls come with a strainer bowl as standard. The practical VARIO draining tray is particularly suitable for ceramic sinks that have either no or only a small draining board: it is designed to channel all the drained water back into the sink. Stainless steel strainer baskets, salad baskets, plate stand inserts and cutting boards made of either wood or polyethylene complete the range of accessories.

*My House of Villeroy & Boch*

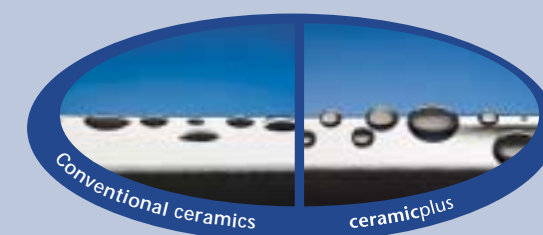

*Materials/  
Colours*

Ceramics – an outstanding material – and we’ve improved it even further: **ceramicplus**, the first ceramic material with a dirt-repellent, easy-care surface which remains clean virtually of its own accord. It’s so smooth that water and dirt are virtually unable to gain a hold and run off immediately. Even most stubborn stains, e. g. from tea, beetroot, red wine or limescale, are easier to remove. A real help in the kitchen: less work, less cleaning agents – a soft, damp cloth is all that’s needed. This is no miracle, but the result of 250 years of experience with ceramics.

Various trials simulating long-term use have demonstrated the durability\* of **ceramicplus**. The material’s high quality and outstanding properties have also been confirmed by testing carried out by the independent IST Fraunhofer Institute in Brunswick.

\*subject to compliance with care instructions

*Ceramic*

*ceramicplus*

It’s no accident that ceramic sinks are standard in bathrooms, hospitals and laboratories – no other material is so hygienic, indestructible and easy care. Hot pots and pans, mechanical stress factors such as cutting meat or chopping herbs, even aggressive chemicals cannot harm ceramics that have been fired at 1200°C. And there is no need for tiresome polishing – a few drops of washing-up liquid and a damp cloth is all it takes and everything is as good as new.

As tough as they come.

Classically discrete, colourfully trendy or ultra modern in metallic – with a total of 19 variants in three colour ranges available, there's a colour to suit every taste and add the finishing touch to a dream kitchen.
