TOILET ASSORTMENT

Contemporary Style and Versatility
Toilets for Comfort

COMFORT DESIGN

UNIVERSAL DESIGN: Taller seat heights are not only ADA compliant, they also are extremely comfortable. These toilets will age with homeowners as the taller height makes for ease of use.

XL AND ELONGATED SEATING: Elongated and extra-wide seat designs lend themselves to optimal comfort. As seating surface size increases, so does the ability to relax.

ADDED CONVENIENCE

SOFT CLOSE AND QUICK RELEASE SEATING: With Villeroy & Boch’s Soft-close and Quick-release seat options, conveniences are found where they truly matter. Gone are the days of a slamming toilet seat. With a simple nudge, the toilet seat will slowly lower to a silent closure.

Quick-release allows for easy cleaning. No more dirt and grime accumulating around the seats hinges; simply remove, clean and replace. It’s that easy!
Our Toilets Make WaterSense

Villeroy & Boch has a strong commitment to environmental sustainability, which is represented well by the quantity of V&B toilets that are WaterSense Certified.

The United States Environmental Protection Agency’s WaterSense program provides an easy way for consumers to tell which products are considered to be more environmentally friendly. Every product that has earned WaterSense certification has been tested and proven to be at least 20 percent more efficient without sacrificing performance.

WaterSense Certified Toilets from Villeroy&Boch

DirectFlush Technology
The Future of Flushing

Villeroy & Boch’s DirectFlush technology brings a cleanliness level to bathrooms that has never before been seen. Featuring a rimless design, DirectFlush toilets offer optimal water flow for powerful cleaning of the bowl and removal of waste. Also available in exclusive CeramicPlus finish for even easier cleaning.

- Wall-mounted toilet with rimless dual-flush technology
- Optimal water flow with every activation for a complete flush
- Efficient water use – 0.8 or 1.6 gpf
- More hygienic and easier to clean
- One-man installation and superior aesthetics thanks to the exclusive Suprafix 2.0 hidden-fixation system
- IAPMO listed

DirectFlush toilets are available in Villeroy & Boch’s Architectura and Subway collections.
SupraFix
Sleek, Stylish and Convenient

Villeroy & Boch’s patented SupraFix mounting system simplifies the installation of wall-mounted toilets, saving time and effort. With this innovative system, installation can be completed by just one person and leaves no visible fasteners, thus enhancing the toilet’s overall aesthetics.

SupraFix is available for La Belle, Memento and Subway wall-mounted models.

COMPLETELY INVISIBLE
The absence of visible fasteners on the sides of the toilet not only improves the aesthetics of the toilet, it also makes the outside surfaces easier to clean.

EFFORTLESS CLEANING
Because wall-mounted toilets are installed off the floor, the area underneath is easier to access and clean, making them a more hygienic option. In addition, all Villeroy & Boch models are space-saving by design and are WaterSense-certified.
